

MAKERSPACE and STEAM DONATIONS WELCOMED

Dear Dayton School Family:

Our MakerSpace will be open to students again this year providing a space for students to explore, discover, build and create. Last year, our students demonstrated their creativity as they thought in BIG ways to design and engineer using everyday ordinary objects in order to create extraordinary masterpieces. We welcome items that can be used to foster students' creativity. Also, while completing no-tech or low tech activities in STEAM, students will be provided with everyday items to use as they think like scientists, engineers, artists and mathematicians.

Please consider donating upcyclable items instead of tossing them out. We will use them and we are sure they will spark creativity. Below are some ideas of items that can be upcycled. If you see something that is not on the list that you wish to donate, please do not hesitate to email us about it!

Thank you so much for your support. It is greatly appreciated!

Upcyclable Items

Air dry clay
Beads
Bottle caps
Boxes/cardboard
Buttons
CDs
Clips/clothespins
Coffee stirrers
Craft beads/small craft decor
Craft sticks/popsicle sticks
Fabric
Felt
