Superintendent of Schools

SHELITA WATKIS, PH.D
Principal

February 16, 2023

Dear Parents/Guardians,

Science experiments are a great way for students to highlight how the knowledge they have acquired during their academic study can be applied to real-world problems. We are pleased to announce the return of the Eastport-South Manor Elementary Science Fair which has served as an opportunity for students to share such experiments. We encourage students who are interested to participate!

Information about the Science Fair has been shared with students in their Google classroom. This information can also be found [here](#). All students in grades 3 - 6 may participate. Participating students need to follow the Brookhaven National Lab project guidelines and pre-register [here](#) before March 1. Once we receive the projects, they will be judged and one project from each grade level will be chosen for the Brookhaven National Lab competition.

Please take some time to look at the information which has been shared with your children as there are specific deadlines. We look forward to celebrating the work of our scientists!

Sincerely,

Shelita Watkis

Dr. Watkis
