SCOPE Summer STEM 2026

Build & Thrill is a hands-on Summer STEM enrichment course where students become amusement park engineers, designing and building attractions through engaging, classroom-based STEM activities. Using roller coasters as a central focus, students explore concepts such as gravity, speed, energy, and motion by creating and testing model coasters, while additional challenges include designing Ferris wheels, spinning rides, and other theme park attractions. Through collaborative design, problem-solving, and real-world engineering challenges, students apply science, math, and critical thinking skills as they imagine, build, and refine their own amusement park ideas.

STARS, STRIPES & SHOWTUNES

A BROADWAY TRIBUTE TO
AMERICA'S 250TH BIRTHDAY

Stars, Stripes & Showtunes is a two-week Broadway-style musical theater program celebrating America's 250th birthday through songs, scenes, and storytelling inspired by iconic American musical theater traditions. The curriculum draws thematic inspiration from well-known Broadway productions such as *Annie*, *Hamilton*, *Newsies*, and *1776*, using age-appropriate material to explore ideas of independence, resilience, civic pride, and the American spirit. Students build foundational skills in acting, singing, and movement while working collaboratively in ensemble groups and learning essential stagecraft and performance etiquette. Instruction emphasizes creative expression, confidence-building, and understanding how musical theater can reflect important moments and values in American history. **The program culminates in an informal, high-energy showcase for families at the end of the two weeks**, featuring a patriotic Broadway-style medley that highlights original arrangements and educational performance pieces inspired by American musical theater. This engaging enrichment experience fosters creativity, teamwork, and an appreciation for both the performing arts and America's historical legacy.
