

Da Vinci Learning Center

Where children learn how they learn best!

Diagnostic Academic Evaluations

Diagnostic and prescriptive evaluations in fundamental reading skills, critical thinking and comprehension, math computation and analysis and more. Student Learning Profiles will explore an individual's cognitive strengths and weaknesses, identify learning styles and present a comprehensive and practical plan to improve their performance.

Multisensory Language Instruction for Struggling Readers

Individual and small group instruction, using Orton-Gillingham methodologies, for students who struggle with decoding, spelling and fluency. Progress monitoring with curriculum based measures (CBM) as well as personalized goal markers and multi-faceted instructional plans.

Differentiated Instruction in math, reading, writing, academic subject areas

Alternative methods customized to match the learning profiles of each individual. Multisensory tools used to modify instructional approach and allow for direct and explicit teaching.

Services available at the center:

Academic course-specific tutoring, Speech and Language services, SAT Preparation, Regents Preparation, College Entrance support/Essay writing, CSE consultation, Neuropsychological Evaluation, Psychotherapy, Professional Network Consultation, Parent workshops, Assistive Technology support and more...
